

## Casino World also offers DJ & Karaoke Services starting at \$395!\*

### General Package Information

The two most important factors in your event are these!

1. *Your entire event will be run the way you want it to with the music you want to hear!*
2. *All of your guests will totally enjoy their evening and tell you what a great time they had!*

### WE MAKE SURE YOU ARE SATISFIED, AND HERE IS HOW WE DO IT!

1. **Event Planner** – You pre-select the music selection, specialty songs, and any special announcements. This lets us know *exactly* how you want things done. Your interactive event planning guide is placed on our site when you make a reservation. Be sure to put in a password as this is what allows you to access it
2. **Request Are Gladly Taken** – We try to get requests up front, but obviously there will be requests at your event. We will put our music selection up against anyone. Hits from 1930-today! Only \$5 each extra to play the Hokey Pokey, Chicken Dance, Bunny Hop, or Macarena. Electric Slide and YMCA are only \$10 each (Just kidding again.....any song is free at your request any time)
3. **Elevated Speaker System / Wireless Microphones** – Our smaller speakers are on stands with volume set to your preference. If you buy one of our larger packages the speakers will tower above you so there is no need for stands. A wireless microphone is included at every event at no additional charge. (great for toasts) Some of our speakers are taller than our DJ's.... so keep looking... he's back there somewhere!
4. **"Get the Party Started" Activities** – At your request, Casino World DJ's can use fun events to get your guests involved in the fun at your event. For personal reasons we have discontinued "Pin the tail on the DJ". As soon as I can sit down again we'll come up with another game to replace it.
5. **Full Lighting Show** – Most venues offer no special lighting. We offer a standard lighting package for almost all our DJ events (We do not include lighting with our budget wedding package as it was designed to help the couple that is trying to keep costs at an absolute minimum) *at no additional cost*. This allows the DJ to control the lighting for the entire event, creating the atmosphere you want for your special event. Most events include: At least 2 lighting fixtures with multi colored criss-crossing light patterns that move to the beat of the music. Our larger packages for senior proms and large corporate events include lighting trusses filled with lighting effects and fog (if desired)
6. **We are a full service karaoke company.** We have the largest selections available in the Phoenix metro area on all of our sets. Karaoke can be included in your event if you would like it (small additional fee). We need to know ahead of time so we bring the extra gear. You'll absolutely love hearing some of our wonderfully talented singing hosts.

\*Pricing is based on number of guests and length of event. Please call for a quote.

## **How about a very cool MURDER MYSTERY DINNER THEATER!**

How many company parties have you been to where all you did was sit through another boring dinner making idle conversation? If you were lucky, there was a DJ or band playing a little background music. And if you were REALLY lucky, you had some sort of DJ or MC that hosted a game to try and make things more interesting. Yippee! Lots of fun, right?

Well Casino World has finally come up with an answer to the question of “What can we do to make our party different?” How about hosting a Murder Mystery? Casino World has taken the time to create scripts for a Murder Mystery dinner theater where your guests are the stars – and suspects! All we need from you are some volunteers that are outgoing and willing to get silly and be a little embarrassed. There are no rehearsals or pre-planning meetings that the suspects need to attend. We have everything ready to go that night. We bring the costumes, we bring the scripts, we bring the clues, and if you really want us too we can bring the actors and a dead body. (client assumes all responsibility and risk with a dead body. – Casino World, LLC Management)

In the time it takes your guests to be served and eat their meal, we can provide a very entertaining murder scenario with all the clues to solve it. With a little help from your guests, it will truly be a memorable evening. And the only people who know the solution ahead of time are the Casino World Staff. We have several mysteries to choose from and can even offer some suggestions for themed events. And although, it does not take up the entire evening, it will be the #1 thing your guests remember about the night.
